
SMART LOCKS FOR RESIDENTIAL

A Smart Home starts with a smart door lock. SALTO offers flexible residential solutions for installations – homes, multi-family housing, high-end residential, and rental properties – that are easy-to-install or retrofit, open via keyless and mobile options, and can connect to smart home hubs and devices.

Welcome to the Smart Home security enabler.

SALTO SYSTEMS

Make your door a smart door.

The residential smart lock market is growing and there's great demand for simple yet comprehensive solutions. SALTO has developed a universal smart door lock that replaces the traditional home or apartment door key with an electronic system that allows end users to use a smartphone to control their door, guests, and home. This includes garages, service doors, and lobby areas found in apartments.

SALTO offers flexible residential solutions that are easy-to-install and retrofit, offer keyless and mobile options, connect to smart home hubs and devices like thermostats and alarms (via BLE, Z-Wave/ZigBee/HomeKit), and support integrations via a long list of technology partners.

— **All-in-one smart lock designed to blend in to any type of door.**

— **Easy-to-install and retrofit in less than 5 min.**

— **Keyless and mobile.**

— **Connect to smart home security.**

SALTO DANALOCK V3

The Danalock V3 smart lock is a motorized lock that is mounted on the inside of the door and managed with a mobile phone. It is compatible with almost all standard types of locks.

Smart Home lock for entry door

Use your smartphone to manage access to your home. It will only take a few seconds to grant or deny access to your lock – any time and to anyone.

Easy installation

Mounting the smart lock is extremely simple. One of the key advantages of Danalock is that your existing lock and door handle do not have to be replaced.

Mobile and digital key

The lock combines the advantages of a classic lock with a key and the comfort of a mobile lock for your home with the help of a smartphone app.

Smart Home integrations

Designed for standard compatibility with a wide range of Smart Home systems.

SALTO DANAPAD

The Danapad is a wireless, smart access keypad that allows you to operate your Danalock V3 smart lock without a smart phone. Simplify access to your guests by enabling 24/7 safe and easy access through PIN codes.

Smart keypad access

At one time Danapad can store up to 20 different PIN codes. The PIN code can be set as permanent or temporary. The PIN code length can be set from 4 to 10 digits of randomly selected numbers.

Easy installation

Mounting of the Danapad is simple and easy. Quick and easy, the key Advantage of Danapad is that it does not need any cables for power and communication.

SALTO UNIVERSAL MODULE

With the Universal Module V3, you can also include other electronic opening devices in your smart home. It can be used on garage doors, gates, fences, electric sliding doors or other electronic components and operated via a mobile app like Danalock smart lock.

SALTO DANABRIDGE

It serves as a smart home bridge between your Danalock Smart Lock and your local router. It enables you to lock, unlock and monitor access to your home or apartment from anywhere via your smartphone.

Trusted by Millions

Wire-free smart electronic locking technology trusted by over 5 million access points worldwide to protect their buildings and users.

Innovative Solutions

Wire-free networked, wireless, cloud-based and mobile applications, that set new standards in security, manageability, flexibility and design that bring real-world benefits to virtually any type of access point and door retrofit.
